Wheelchair Accessories, Wheelchair Bling and Other Cool Stuff for Your Wheelchair

## THE PEOPLE BEHIND REHADESIGN WHEELCHAIR ACCESSORIES

Clothing designers such as Gucci, Versace, Armani create accessories which add “spice” to your wardrobe and give your body a new look. The folks at RehaDesign create wheelchair accessories which add “spice” to your wheelchair and give your ride a new look. While we do not claim to be “Versace”, we do claim to design and sell some of the most innovative wheelchair accessories which are functional, chic AND fun, so that you look cool in your wheelchair.

All RehaDesign Wheelchair Accessories have several properties:

- **Innovation:** We sell only unique, well designed, quality wheelchair accessories.
- **Fun Factor:** We do not do anything dull. RehaDesign Accessories increase the fun-factor. Sometimes this means adding “bling” to your wheelchair, sometimes this means a quality product which will help you to lead a more active and fun-filled life.
- **Quality:** RehaDesign Wheelchair Accessories are quality products. If you are not delighted by your RehaDesign purchase, contact us within two weeks of purchase and we will make it right.

## REHADESIGN WHEELS ON FIRE INNOVATIVE REFLECTORS FOR YOUR WHEELS

- US statistics show that everyday there is a collision between a vehicle and a wheelchair.
- Wheelchair users are at high risk because they are lower to the ground than cyclists and they move more quickly than pedestrians.
- Most fatalities occur during night-time.

I CAN  
LOOK AND  
BE SAFER  
TOO!

NOW  
THEY  
WILL  
REALLY  
SEE ME  
COMING!
